

List of **Superseded British Standards** that are to be withdrawn on 31 March 2010:

Loading for buildings

BS 6399-1:1996 Loading for buildings. Code of practice for dead and imposed loads

Superseded by EN 1991

BS 6399-2:1997 Loading for buildings. Code of practice for wind loads

Superseded by EN 1991

BS 6399-3:1988 Loading for buildings. Code of practice for imposed roof loads

Superseded by EN 1991

Structural use of concrete

BS 8110-1:1997 Structural use of concrete. Code of practice for design and construction

Superseded by EN 1992

BS 8110-2:1985 Structural use of concrete. Code of practice for special circumstances

Superseded by EN 1992

BS 8110-3:1985 Structural use of concrete. Design charts for singly reinforced beams, doubly reinforced beams and rectangular columns

Superseded by EN 1992

BS 8007: 1987 Code of practice for design of concrete structures for retaining aqueous liquids

Superseded by EN 1992

Structural use of steel

BS 5950-1:2000 Structural use of steelwork in building. Code of practice for design. Rolled and welded sections

Superseded by EN 1993

BS 5950-2:2001 Structural use of steelwork in building. Specification for materials, fabrication and erection. Rolled and welded sections

Superseded by EN 1994

BS 5950-3.1:1990 Structural use of steelwork in building. Design in composite construction. Code of practice for design of simple and continuous composite beams

Superseded by EN 1994

BS 5950-4:1994 Structural use of steelwork in building. Code of practice for design of composite slabs with profiled steel sheeting

Superseded by EN 1994

BS 5950-5:1998 Structural use of steelwork in building. Code of practice for design of cold formed thin gauge sections
Superseded by EN 1993

BS 5950-6:1995 Structural use of steelwork in building. Code of practice for design of light gauge profiled steel sheeting
Superseded by EN 1993

BS 5950-7: 1992 Structural use of steelwork in building. Specification for materials and workmanship: cold formed sections
Obsolescent

BS 5950-8:2003 Structural use of steelwork in building. Code of practice for fire resistant design
Superseded by EN 1993

BS 5950-9:1994 Structural use of steelwork in building. Code of practice for stressed skin design
Superseded by EN 1993

BS 449-2: 1969 Specification for the use of structural steel in building. Metric units
Superseded by EN 1993

BS 4604-1: 1970 Specification for the use of high strength grip bolts in structural steelwork. Metric series. General grade
Superseded by EN 1993

BS 4604-2: 1970 Specification for the use of high strength grip bolts in structural steelwork. Metric series. Higher grade (parallel shank)
Superseded by EN 1993

Structural use of timber

BS 5268-2:2002 Structural use of timber. Code of practice for permissible stress design, materials and workmanship
Superseded by EN 1995

BS 5268-3:2006 Structural use of timber. Code of practice for trussed rafter roofs
Superseded by EN 1995

BS 5268-4.1:1978 Structural use of timber. Fire resistance of timber structures. Recommendations for calculating fire resistance of timber members
Superseded by EN 1995

BS 5268-4.2:1990 Structural use of timber. Fire resistance of timber structures. Recommendations for calculating fire resistance of timber stud walls and joisted floor constructions

Superseded by EN 1995

BS 5268-5:1989 Structural use of timber. Code of practice for the preservative treatment of structural timber
Obsolescent

BS 5268-6.1:1996 Structural use of timber. Code of practice for timber frame walls. Dwellings not exceeding seven storeys
Superseded by EN 1995

BS 5268-6.2:2001 Structural use of timber. Code of practice for timber frame walls. Buildings other than dwellings not exceeding seven storeys
Superseded by EN 1995

BS 5268-7.1:1989 Structural use of timber. Recommendations for the calculation basis for span tables. Domestic floor joists
Superseded by EN 1995

BS 5268-7.2:1989 Structural use of timber. Recommendations for the calculation basis for span tables. Joists for flat roofs
Superseded by EN 1995

BS 5268-7.3:1989 Structural use of timber. Recommendations for the calculation basis for span tables. Ceiling joists
Superseded by EN 1995

BS 5268-7.4:1989 Structural use of timber. Ceiling binders
Superseded by EN 1995

BS 5268-7.5:1990 Structural use of timber. Recommendations for the calculation basis for span tables. Domestic rafters
Superseded by EN 1995

BS 5268-7.6:1990 Structural use of timber. Recommendations for the calculation basis for span tables. Purlins supporting rafters
Superseded by EN 1995

BS 5268-7.7:1990 Structural use of timber. Recommendations for the calculation basis for span tables. Purlins supporting sheeting or decking
Superseded by EN 1995

Structural use of masonry

BS 5628-1:2005 Code of practice for the use of masonry. Structural use of unreinforced masonry
Superseded by EN 1996

BS 5628-2:2005 Code of practice for use of masonry. Structural use of reinforced and prestressed masonry
Superseded by EN 1996

BS 5628-3:2005 Code of practice for use of masonry. Materials and components, design and workmanship
Superseded by EN 1996

Geotechnics

BS 8002:1994 Code of practice for earth retaining structures
Superseded by EN 1997-1

BS 8004: 1986 Code of practice for foundations
Superseded by EN 1997-1

Structural use of Aluminium

BS 8118-1:1991 Structural use of aluminium. Code of practice for design
Superseded by EN 1999

BS 8118-2:1991 Structural use of aluminium. Specification for materials, workmanship and protection
Superseded by EN 1999

Bridges

BS 5400-1:1988 Steel, concrete and composite bridges. General statement
Superseded by EN 1990, EN 1991

BS 5400-2: 2006 Steel, concrete and composite bridges. Specification for loads
Superseded by EN 1990, EN 1991

BS 5400-3:2000 Steel, concrete and composite bridges. Code of practice for design of steel bridges
Superseded by EN 1993

BS 5400-4: 1990 Steel, concrete and composite bridges. Code of practice for design of concrete bridges
Superseded by EN 1992

BS 5400-5:2005 Steel, concrete and composite bridges. Code of practice for design of composite bridges
Superseded by EN 1994

BS 5400-6: 1999 Steel, concrete and composite bridges. Specification for materials and workmanship, steel
Superseded by EN 1090-2

BS 5400-7:1978 Steel, concrete and composite bridges. Specification for materials and workmanship, concrete, reinforcement and prestressing tendons
Superseded by EN 1992

BS 5400-8: 1978 Steel, concrete and composite bridges. Recommendations for materials and workmanship, concrete, reinforcement and prestressing tendons

Superseded by EN 1992

BS 5400-9.1 and 9.2 bearings - not affected

BS 5400-10C: 1999 Steel, concrete and composite bridges. Charts for classification of details for fatigue

Towers, Masts and Chimneys

BS 8100-1:1986 Lattice towers and masts. Code of practice for loading Code of practice for loading

Superseded by EN 1993

BS 8100-2:1986 Lattice towers and masts. Guide to the background and use of Part 1 'Code of practice for loading'

Superseded by EN 1993

BS 8100-3:1999 Lattice towers and masts. Code of practice for strength assessment of members of lattice towers and masts

Superseded by EN 1993

BS 8100-4:1995 Lattice towers and masts. Code of practice for loading of guyed masts

Superseded by EN 1993

BS 4076:1989 Specification for steel chimneys

Superseded by EN 1993
