BS EN 50216:-

Power transformer and reactor fittings

BS EN 50216-11

Oil and winding temperature indicators

This standard, which will be available shortly, implements verbatim EN 50216-11:2008.

EN 50216-11 covers oil temperature and winding temperature (thermal image) indicators of the interchangeable mechanical (not electronic) type with contacts for use with liquid immersed power transformers and reactors for indoor or outdoor installation.

This standard defines the characteristics of the instruments in order to ensure the interchangeability achieving the same performance.

Except where otherwise specified or implied herein, oil and winding temperature indicators shall comply with the requirements of EN 50216-1

BRITISH STANDARDS REVIEWED AND CONFIRMED

It is BSI policy for every standard to be reviewed by the technical committee responsible not more than five years after publication, to establish whether it is still current and, if it is not, to identify and set in hand appropriate action.

Confirmation indicates the continuing currency of a standard.

Where any standard in this list has been amended since publication, confirmation includes all amendments published to date. Reference to a particular amendment indicates that it is published concurrently with the confirmation.

**BRITISH STANDARDS
DECLARED OBSOLESCENT**

Declaration of obsolescence indicates that the standard is not recommended for use in new equipment but needs to be retained for the servicing of existing equipment that is expected to have a long working life.

BS 490:—

Conveyor and elevator belting

BS 490-2:1975

Rubber and plastics belting of textile construction for use on bucket elevators

PR1/67

This standard has been declared obsolescent as all other parts of BS 490 are currently being proposed for withdrawal or have already been withdrawn. This would leave BS 490-2 as a stand alone item referring to a range of test methods that no longer exist

BS 2782:—

Methods of testing plastics

BS 2782-11:Method 1112A:1989

Thermoplastics pipes, fittings and valves. Leaktightness of thermoplastics pipes and fittings for non-pressure applications

This standard has been declared obsolescent for a further period as it is no longer relevant

BS 6346:1997

Electric cables. PVC insulated, armoured cables for voltages of 600/1000 V and 1900/3300 V

GEL/20/17

This standard has been declared obsolescent as the products falling within the scope of this standard are declining in market relevance

BS 7770:1995

SS/7

This standard has been proposed for withdrawal as it is based on the 1993 edition of the Guide to the expression of uncertainty in measurement (GUM). ISO has recently republished the 1995 (corrected) edition of the GUM as ISO/IEC Guide 98-3:2008. The relevant BSI committee has decided not to adopt the 2008 edition of the GUM as a BSI Published Document. Printed copies of ISO/IEC Guide 98-3:2008 are available for purchase from BSI Customer Services

DRAFT BRITISH STANDARDS FOR PUBLIC COMMENT – NATIONAL BRITISH STANDARDS

You may now comment on any National British Standard online. BSI British Standards has launched a Draft Review system which allows access to the drafts of all National British Standards. To enhance access of Drafts for Public Comment for the wider community, make comments more visible and move into collaborative working practices, you will now be able to comment on any National British Standard by visiting <http://www.bsigroup.com/drafts>. All you need to do is register. This service is free of charge.

Please note that the only standards available on this service are pure British Standards (National Standards e.g: BS XXXX). European and international documents are not included at this time.

Deadlines for receipt of comments on each of the individual drafts can be found at <http://www.bsigroup.com/drafts>. The deadline for the following drafts is **28 February, 2009** unless otherwise stated.

Should you wish to receive these drafts in hard copy format, they are available for a fee from BSI Customer Services (see 'How to order' on page 2).
