

# The Digital World: BIM

London, 19 September 2019

## The Programme

---

08:00 Registration

---

08:30 **Chairman's opening**

**Richard Waterhouse**, Chair of the British Standards B/555 Committee on Building Information Modelling

---

08:40 **Opening presentation: BI(M) - BIM data without models**

Why pure data, not models, will be at the centre of the next wave for BIM and facilities

**John Tobin**, Director, SMRT Inc. (NY Office)

---

09:00 **Permissioned blockchain for BIM and BIM for disaster risk management**

**Martin Poljansek**, Scientific Project leader, European Commission, Joint Research Centre

---

09:35 **Digitalising Airports Information Production & Management**

**Chair: Lewis Watts**, BIM Lead & Asset Information Manager, Gatwick Airport

**Jean-Manuel Lejeune**, Head of Digital Transformation & Information Management, Dublin Airport (DAA)

**Nigel Stroud**, Asset Information Manager, Heathrow Airport

**Johannes Bjarnason**, BIM/VDC Manager, Reykjavik Airport (Isavia)

---

---

**10:15**      **Coffee break**

---

**10:35**      **The future is here: UK leadership in information management**

**Anne Kemp**, BIM Strategy & Development Director Atkins, Convenor of ISO 19650 Working Group & and co-author of Transitional Guidance

**Paul Shillcock**, Director, Operam, UK Expert for BS EN ISO 19650-2 & and co-author of Transitional Guidance BSI Committee

---

**11:10**      **Making it real**

**Han Shi**, Head of BIM & Design Systems, Foster + Partners

**Martha Tsigkari**, Partner, Applied Research and Development,  
Foster + Partners

**Joshua Mason**, Associate Partner, Specialist Modelling Group,  
Foster + Partners

---

**11:30**      **Lifting the lid: The future of infrastructure**

Join us for a view into the future of infrastructure, by those building it. An exciting insight into cutting-edge start-ups working within the construction-tech space, solving problems faced by project teams today and delivering solutions that improve tomorrow

**Chair: Jack Lomas**, Head of Product, Mott Mac Digital Ventures

**Continuum Industries: Grzegorz Marecki**, CEO and

**SenSat: Sheikh Fakhar Khalid**, Chief Scientist (CSO)

---

**12:05**      **Connected data eco-systems across the world**

**Stephen Hamil**, Innovation Director, NBS

---

**12:15**      **In conversation with: a Scottish journey towards sector digitisation**

**David Philp**, Global BIM/IM Consultancy Director, AECOM and member of the British Standards B/555 Committee on Building Information Modelling

**Paul Dodd**, Head of Infrastructure Technology, Scottish Futures Trust

---

**12:50**      **Networking Lunch**

---

13:50

**Afternoon Streams**

Chair for Stream A (Gladstone Library): Richard Waterhouse

Chair for Stream B (River room): Paul Shillcock

13:55

**A**

**Do we really need BIM, or just old-fashioned construction management?**

**Alex Worp**, Strategic Advisor BIM - Asset Management, Schiphol Airport &

**Rob Roef**, Building Room Steering Committee Member, Building Smart International

**B**

**BIM: Best practices within the supply chain**

**Charlotte Broady**, Sector Propositions Manager, Built Environment, EMEA, BSI;

**David Throssell**, Head of Digital Construction, Skanska UK;

**Dale Turner**, Director of Procurement and Supply Chain, Skanska UK &

**Phil Greenman**, Business Improvement Procurement Manager, Skanska UK

14:20

**Spotlight: The Crossrail Story**

**Malcolm Taylor**, Head of Technical Information, Crossrail

**Upskilling staff for BIM: developing a digitally competent workforce**

**Donatella Fiorella**, BIM Manager, ISG plc

14:55

**Enabling communication in mixed use development: TRIPLA and Open BIM**

**Vesa Putkonen**, BIM Manager, Architects Soini & Horto Ltd

**How the newly developed Swedish Guidelines for BIM and geodata will change the way we will write BIM specifications**

**Rogier Jongeling**, Technical Expert, BIM Alliance Sweden

15:15

**Afternoon Coffee break**

15:30

**Adoption of Digital working practices in Asia**

**George Mokhtar**, Tech/BIM Director, Turner & Townsend

**From BIM to BAU: what does “Business as Usual” means for BIM in a global engineering practice**

**Alain Waha**, Global Lead BIM and Digital Transformation, Buro Happold Engineering

<b>15:50</b>	<p><b>Perception is everything: bringing the next generation into construction</b></p> <p><b>Geoffrey Makstutis</b>, Lead in Construction, Art &amp; Design, Creative Media Production, Pearson UK</p>	<p><b>Can BIM technologies work for cruise ships?</b></p> <p><b>Matthew Jensen</b>, Project Director, Fraiserline; Architecture &amp; Innovation - Marine, Commercial, and DFMA</p>
<b>16:10</b>	<p><b>Automated Construction using a Platform Approach</b></p> <p><b>Jaimie Johnston</b>, Director &amp; Head of Global Systems, Bryden Wood</p>	
<b>16:30</b>	<p><b>I still haven't found what I'm looking for</b></p> <p><b>Colin Johnson</b>, Managing Director, CADENAS UK Solutions Ltd</p>	
<b>16:50</b>	<p><b>Chairs remarks and summary</b></p> <p><b>Richard Waterhouse</b>, Chair of the British Standards B/555 Committee on Building Information Modelling</p> <p><b>Paul Shillcock</b>, Director, Operam, UK Expert for BS EN ISO 19650-2 &amp; and co-author of Transitional Guidance BSI Committee</p>	
<b>17:00</b>	<p><b>Event close</b></p>
